FEATURES

- The GIOTTO Plus Fabric Tension System awning has been specifically designed to be fitted to powder-coated aluminium front legs, thus making this system versatile for private or public installations.
- Fabric is taut when the system is fully open, closed or somewhere in between.

CUSTOM SOLUTION BLINDS

- The Giotto Plus Fabric Tension System awning mechanism.
- The Giotto is always motorized – Gear-Box drive is not available
- The GIOTTO PLUS can be fixed to an existing wall, roof eave or garage wall etc, and rests on two aluminium posts.
- Twin Models are available – each has its own motor and can be operated independently.

Wind Class 1 (European) /
Beaufort Force 4 (Australian)

Maximum wind speed of 27kms

Standard Powder-coat colours are included in the price
