## Select Type

### BLOCKOUT CURTAINS

- + Excellent for blocking out of light
- + Complete night-time privacy
- + Best product for thermal & sound insulation
- + Savings on energy bills
- + UV protection

### SHEER CURTAINS

- + Soft diffused natural light
- + Daytime privacy
- + Adds softness to a room
- + Layer with blockout curtains for night time privacy

### DOUBLE CURTAINS

- + Blockout & sheer curtain combined
- + One for day & one for night
- + Control of each curtain is separate
- + All the practical & visual benefits of both blockout & sheer curtains
- + Layered curtains for a beautiful

finish

# Blockout Curtains

Blockout curtains provide excellent light control, privacy & reduce outside noise levels, allowing you to have complete control over your environment depending on the occasion & your mood.

Our curtains can preserve up to 20% of the total heat in your home, creating a trapped layer of air between the fabric & the window, which results in an insulating air pocket. Studies demonstrate that curtains made from blockout fabric can reduce heat gains by 33 per cent.

Choose from our range of **coated fabrics** or select an **uncoated fabric with lining** fabric attached.

If you're looking for complete light control then our lined curtains are the ideal solution – combined with pelmets you can enjoy the ultimate in room darkening & insulation.

## Insulation

- + Best for insulation all year round
- + Savings on energy bills
- + Reduction in outside noise levels
- + Lining fabric creates layer of trapped air & further insulation
- + Add pelmets for best insulation to trap air from in & out

### IN UNIFORM

Layering our lining fabric behind your curtains adds uniformity to the exterior appearance of your home

## Light Control

First choice product for blackout of light

- + Room darkening
- + Complete privacy
- + UV Protection for interiors
- + Ideal for bedrooms

## Long Term Investment

There is a significant amount of attention & care that goes into every step of the creation of our custom curtains, as a result, they are more durable & longer lasting.

Replacing or repairing window coverings due to damage & age can end up costing more than they are worth, so custom curtains can save you a lot of money in the long run.

As our curtains are made to measure this ensures a snug fit for your windows & doors which assists with your home's insulation. This creates a more energy efficient home which results in savings on your energy bills.

# Curtains with Complimentary Making

A range of high quality & affordable uncoated & coated curtain fabrics.

Select from our curtains & complimentary making range & there will be no making costs added to your curtains.

Borrow a sample of your fabric choice & try it at home. We offer full curtain lengths so you can take them home & hang them up! Colours can vary in different lights so with our full length curtain samples you can be sure to see how it looks in your home, during the day & in the evening.

## Curtains

- + Exceptional Australian Made quality you can trust
- + Full length curtain samples to borrow
- + Complimentary making
- + Quality fabric brands
- + Market leader pricing
- + Priority making

# Sheer Curtains

Sheer curtains float delicately across your windows to diffuse sunlight & soften your home, dramatically transforming any space.

They let the daylight through your windows & provide daytime privacy making them perfect to use in a layered window solution.

Sheer curtains also soften the link between your indoor & outdoor living areas whilst enhancing the ambience of a room by adding movement & texture.

Our new operating options now make them easy to operate. Gone are the days of trying to pull heavy curtains back & fourth, with the flick of a wand, & minimal effort, your sheer curtains can glide easily from side to side.

# Sheer Benefits

- + Diffused natural light
- + Adds daytime privacy
- + Hides unsightly views
- + Daytime sun protection
- + Adds softness, warmth, movement & texture
- + Softens link between indoor & outdoor living areas

## DAYTIME

Closing sheer curtains during the day reduces the effects of the sun but also provides daytime privacy

## Layering

- + Layering sheer curtains is important for privacy & light control
- + Layer our sheer curtains over roller blinds, roman blinds or shutters to allow for night-time privacy & light blackout
- + For the ideal combination team sheer & blackout curtains together with our double curtains - cue next page!

## The Wave

- + Neat & modern curtain heading style for a designer finish.
- + Easy to operate with our wand control.
- + Can be selected for both sheer & solid fabrics for layering & consistency across rooms.
- + Use for a double curtain for two curtains in one.

# Double Curtains

Our double curtains combine our blackout & sheer curtains together on the one window for a well designed & practical finish. You have the choice of layering one or the other on the front or back.

Draw open the blackout curtain during the day & keep the sheer curtain closed for diffused light & daytime privacy. Close the blackout curtain at night for complete light control, privacy, thermal & noise insulation.

It's the best investment for your windows & home to get double the practical benefits along with all of the visual benefits of curtains.

# Two in One

- + Combine two curtains on the one window - one for day & one for night
- + Benefits of a sheer curtain combined with a blackout curtain
- + Control of each curtain is separate so enjoy window views & diffused light during the day with privacy & darkness at night
- + Double the insulation benefit

**SHEER ON TOP**  
Layer our sheer curtains on top of our lining fabric for a beautifully soft finish

Quality is key with fabrics as each fabric has its own unique characteristics & performance levels. With Australia's largest selection of curtain fabrics, you've come to the right place.

**dc+b  
designs**

## Design Fabrics

- + On-trend exclusive fabrics
- + High Quality - Designed & tested to withstand Australia's harsh climate
- + We buy in bulk - lower prices & minimal waiting time for fabrics
- + Our own ranges mean less hidden costs, passing the cost savings onto you

## Why Our Fabrics

- + Australia's largest fabric & colour range
- + Trusted market leading brands
- + Quality Australian Made fabrics
- + Thermal insulation - saving you money on your energy bills
- + Coordinating blind & drapery ranges
- + Flame retardant fabrics
- + Lead & PVC free fabrics
- + UV & fade resistant fabrics
- + Easy to clean, stain & dust resistant fabric

## Sheer

Translucent fabrics that filter light. Ideal for daytime privacy & adding softness to a room. Beautiful to layer with heavier fabrics or over lining fabrics to also achieve night-time privacy & light control.

## Uncoated

Tightly woven fabrics without any coating which provide a higher level of insulation & light control than sheer fabrics. Lining fabric is required to be layered underneath.

## Coated

Coated fabrics have a coating applied to one side which helps to block out the light. The addition of a lining fabric is not required.

## Lining

Lining fabrics are plain fabrics with a durable coating applied to one side. Lining is usually layered behind a sheer or uncoated fabric. Our lining is proudly Australian Made & blocks out light, improves privacy, adds thermal & noise insulation, protects the front curtain fabric & interiors from sun damage & ensures curtains have a beautiful drape.

## Curtains

A range of high quality & affordable uncoated & coated curtain fabrics. Select from the curtains & complimentary making range & there will be no making costs added to your curtains. Also enjoy full length curtain samples & priority making.

### FABRIC & CURTAIN CARE TIPS

Curtains are very low maintenance & easy to keep clean. To maintain & preserve the life span of your curtains regular dusting & vacuuming is recommended. Also refer to the care label instructions supplied with every curtain.

To extend the life of your curtains a high quality lining fabric is recommended to not only provide insulation but to protect your curtains, & the rest of your interiors, from sun damage.

It's recommended to invest in sheer curtains that remain closed during the day, not only does this reduce the effects of the sun, but it provides daytime privacy.

## Select Style

Choosing your curtain heading style is integral in deciding what curtain is right for you with each of our headings offering a different look & different amount of fabric fullness.

### THE WAVE

Our wave fold style is easy to operate + creates a designer finish for both blackout + sheer curtains

**NEAT PLEATS**  
Opt for the knife pleat style for tailored sheer curtains & cordless child safe operation

### WAVE FOLD

A smooth continuous 'wave' effect is created using a special track & tape heading. It's easy to operate & is the most contemporary & popular style at present. Suitable for both **blockout** & sheer curtains.

WAVEFOLD HOOK

WAVEFOLD STUD

PINCH PLEAT

Smartly tailored for a classic look with groups of three pleats spaced evenly along creating beautiful fullness & neat stacking to the side, ideal when there is less wall space. Suitable for both **blockout** & sheer curtains.

### REGIS & MAXI

These pencil pleat gathered headings create soft & informal pleats. Suitable for **blockout** & sheer curtains.

REGIS

MAXI

### DOUBLE PLEAT

Groups of two pleats are spaced evenly along resulting in a less full, simpler appearance on large windows. Suitable for **blockout curtains**.

DOUBLE PLEAT

### KNIFE PLEAT

A beautifully tailored heading that creates a soft & informal finish. It is also designed with no need for cords. Suitable for **sheer** curtains.

KNIFE PLEAT  
STANDARD

KNIFE PLEAT  
70MM

### REVERSE PLEAT

A tailored appearance this style hangs below a decorator rod & has a larger stack back compared to other styles. Suitable for **blockout curtains**.

REVERSE PLEAT +  
DECO POLE

### EYELET

Metal rings teamed with a decorator rod for a casual look & less stack back. Suitable for both **blockout** & sheer curtains.

EYELET

# Banding & Trims

For a decorative finish or pop of colour our decorator team can add banding & trims across the top, bottom or sides of your curtains.

Opt for a coordinating fabric for a more subtle finish or for a bolder statement use a contrast fabric. Pairing sheer & heavier weight fabrics together is also a beautiful way to add texture & visual interest.

Our banding is perfect for rooms with very tall ceilings as by banding another fabric to the top or bottom of the curtain, we can extend the height of the curtains without introducing any additional seams.

For sheer curtains adding banding across the top of the curtain in a heavier fabric can also be used to disguise the wall or top of the blind that may be installed behind.

AT THE TOP  
We can design banding in a heavier fabric to go across the top of your sheer curtains

## Width

Opt for wall to wall (or as wide as you can go!) if there is wall space available. This means when drawn open the 'stack back' as we call it covers less of the window to maximize your views & natural light entering into your home.

WHERE POSSIBLE GO HIGH & WIDE! THIS HIGHLIGHTS THE HEIGHT IN THE SPACE, DRAWING THE EYE UP & MAKING THE ROOM APPEAR MUCH LARGER THAN IT ACTUALLY IS.

## Height

Install is either ceiling fit or face (wall) fit. It's best to go ceiling to floor (or as high as you can go!) if there is wall space for it. This adds the illusion of height to windows & rooms but also added practical benefits as it improves the blockout of light & increases insulation.

## Length

So where will they finish on the floor? It's up to you based on what you prefer! As our curtains are custom made we hand craft them to all different lengths however we recommend to go past the window sill to the floor for light control, privacy & insulation purposes (unless the curtains are being installed above a breakfast nook or bench seat!).

THE FLOAT

- + Fabric finishes above floor
- + Soft & tailored drape
- + Durable for high traffic
- + areas Easy to keep clean

THE KISS

- + Fabric finishes approx. 1cm-2cm on floor. Above photo is approx. 1cm on floor.
- + Modern take on the puddle
- + Contemporary look

THE PUDDLE

- + Fabric finishes 10cm & on floor for an opulent look. Above photo is approx. 10cm on floor.
- + Low traffic areas
- + Not recommended for coated fabrics

## Stacking

Our curtains can be designed to be center opening with the curtains stacked on both sides when drawn open or one way opening, left or right stack, with the curtains stacking back to only the one side when drawn open. Curtains can also float freely to draw to any position on your track or rod. It all comes down to what is the most practical & functional design for each window.

## 5 Select Tracking

Tracks complete the look of your curtains & our made to measure tracks allow us to custom fit to any size & shape window. Our standard tracking is custom made from high quality powder coated aluminium.

We can mount tracks onto **ceilings, arcs or walls**, allowing great flexibility.

With **single or double tracks**, the designs are limitless. Double tracks combine more than one window covering, allowing you to layer sheer curtains beneath blackout curtains & vice versa. This adds interior design aesthetics but also boosts your insulation.

We design custom **bent & curved tracks** to go around corners, designed exactly to the size & shape required.

For a more decorative look opt for our **decorator rods** - cue next page!

Add the finishing touches to our decorator rods with our **rings & finials**. Decorative in nature, rings attach to the rod & allow your window treatments to easily open & close, while finials, the decorative pieces at the end of a rod, allow you to customise your look.

BLACK + WHITE  
Team white  
curtains  
with black tracks for a  
designer finish.

## Decorator Rods

### 25MM DECORATOR TRACKED RODS

- + Use with our pinch pleat, knife pleat, reverse pleat & other pleated styles
- + Provided with runners to use as a track
- + Plain finish
- + Paired with finials or end caps
- + Hand drawn operation

### 29MM DECORATOR RODS

- + Use with rings for our pinch pleat, knife pleat, reverse pleat & other pleated styles
- + Use without rings in our eyelet style
- + Paired with round finials or end caps
- + Hand drawn operation

### 38MM DECORATOR TRACKED RODS

- + Use with our pinch pleat, knife pleat, reverse pleat & other pleated styles
- + Supplied with rings or with runners to use as a track  
Reeded or plain finish.

## 6 Select Control Type

Choose from hand drawn, cord drawn or motorised tracking.  
All operations accommodate a one way draw for single curtain panels or two way draw for dual curtain panels. All are available on single tracks or double tracks for double curtains.

### Hand Drawn

- + Child & pet safe
- + Highly adaptable
- + Can enable flexibility for large window configurations
- + Centre open, one way open or free draw open
- + Add wands, available in varying sizes, to easily operate & protect fabric

### Cord Drawn

- + Easy operation with cords secured in position to walls behind curtains for child & pet safety
- + Centre open or one way open
- + Ideal for large windows to help with weight of fabric
- + Improves stack back when curtains are drawn open as tension is increased to maximise windows natural light & views

## Motorised

Our innovative Automation range can operate all of your home's indoor & outdoor window covering motors with the one device using ARC technology.

Our Pulse Hub allows you to accurately control your window coverings via our 'control' app on your iOS or Android smartphone or tablet, or via voice control.

For voice control, set up our Pulse Hub with your preferred smart device to easily control your window coverings with simple voice commands.

Our remotes are the foundation of your motorisation system featuring tactile push button controls, 15 channels, group controls & slimline wall mounts. Remote designs vary depending on the motor chosen.

Our system also allows your curtains to be operated manually, without power, when necessary.

- + Child & pet safe
- + Easy to operate
- + Control one curtain individually or as a group at one time, from a single remote
- + Operate your curtains from anywhere
- + Battery operated or hard wired motors
- + Suitable for difficult to reach windows
- + Operate heavy window coverings with ease

#### AUTOMATION BROCHURE

Don't miss our automation brochure to see our full range of motorised options

## Pelmets

A perfect addition over your curtains, our custom made pelmets finish off your windows for a neat streamlined look & add further insulation by trapping air at the top of your window. For a softer look we also have & the more traditional valances swags & tails.

## why our pelmets

- + Increase insulation & save money on your power bills
- + Increase light control
- + Conceal hardware underneath
- + Frame your windows
- + Australia's largest range of designs
- + Corner window? No problem!

Our angled pelmets are designed for corner or bay windows

## Cushions

Cushions are an inexpensive way to give your home a style update. Adding the finishing touch, they create a complete home interior look & are perfect to inject colour into a room. We custom make cushions to all shapes & sizes, with or without piping, to coordinate back with your curtains, soft roman blinds & bonded blinds. We can also design window seat cushions made to fit to your furniture.

## Tie Backs

Our tie backs, hold backs & tassels enhance a room by adding a decorative touch to your curtains, as well as adding a functional element, holding your curtains to the side & framing your windows.

**LAYER UP**  
Select one of our uncoated fabrics + layer a soft roman blind behind your curtains in a coordinating design
